CAREER OBJECTIVE

Seeking internships and entry-level roles in financial analysis, business intelligence, fintech, accounting operations, and digital product. I want to ship work that is precise, visual, and useful.

EDUCATION

Bachelor of Commerce (CBCS)

Indian Institute of Management and Commerce · Osmania University · 2024 — 2027

CGPA 8.51 · Peak SGPA 9.04

Third year · Hyderabad

Intermediate — CEC

Telangana State Board of Intermediate Education · Commerce stream · 2022 — 2024

884 / 1000 · 88.4% · A Grade

Economics, Accountancy, Political Science, English, Sanskrit

Secondary School Certificate

Gowtham Model School, Hastinapuram · Board of Secondary Education, Telangana · 2022

CGPA 8.8 / 10

English medium · Hyderabad

SEMESTER PERFORMANCE

Semester 1: SGPA 9.04 · Semester 2: SGPA 8.04 · Semester 3: SGPA 8.60 · Semester 4: SGPA 8.36

PROJECTS

niharprojects.com — Personal Brand Site — 2026

Designed and shipped a cinematic personal site on React + TypeScript, hosted on GitHub Pages with custom domain, SSL, resume, and 10 live finance studios.

• Custom domain + HTTPS on GitHub Pages · SEO basics: sitemap, robots, Open Graph,

schema.org Person • Mobile-responsive dark editorial UI

Stack: React, TypeScript, Vite, GitHub Pages, DNS

Academic Performance Intelligence Dashboard — 2025 — 2026

Modeled four semesters of B.Com results as an analyst would — SGPA trends, grade distribution, credit load, and honor density.

- CGPA tracking at 8.51 with peak 9.04 • Paper-level grade inventory (30 courses) •

Storytelling for internship interviews

Stack: Power BI concepts, Excel, Data storytelling

New Regime Tax Explainer Tool — 2026

Turned Income Tax (A grade) theory into an interactive slab calculator with cess and rebate logic for learning and demos.

- Translates syllabus into usable UX • Shows effective tax rate, not only absolute tax •

Safe educational framing for non-filers

Stack: Taxation, JavaScript, Product design

Double-Entry Learning Lab — 2025 — 2026

Interactive journal + T-account trainer built from Financial Accounting I & II (A+).

- Makes debit/credit visible • Supports practice narrations • Useful for peer tutoring / demos

Stack: Accounting, React, Pedagogy

Business Statistics Workbench — 2025 — 2026

Live descriptive statistics engine for series analysis — aligned to Business Statistics I & II (A+).

- Mean, median, variance, σ , CV, quartiles • Instant visual feedback • Interview-ready stats fluency

Stack: Statistics, Python thinking, Charts

Retail Ratio & Break-even Pack — 2026

Ratio Radar + Margin Map for liquidity, solvency, profitability, and CVP decisions on a sample product line.

- Statement-to-ratio workflow • Break-even and margin of safety • Bridge from textbooks to decisions

Stack: Financial analysis, Excel models, Costing

Cashflow & EMI Decision Duo — 2026

Cashflow Compass and EMI Lab for runway thinking and loan amortization — practical money math for students and small ops.

- Monthly surplus / deficit clarity • EMI + total interest transparency • Amortization intuition without spreadsheet fear

Stack: Excel logic, Finance math, UX

Insurance Premium Sketch + SQL Commerce Lab — 2026

Premium Pulse (insurance illustration) and Query Forge (RDBMS sample queries) connecting insurance papers and database coursework to product demos.

• Shows domain + data range in one portfolio • SQL patterns: join, filter, aggregate • Insurance concepts made interactive

Stack: SQL, Insurance, RDBMS

INTERACTIVE PORTFOLIO STUDIOS

- **Tax Atelier** — Interactive new-regime slab engine — income in, waterfall out, with standard deduction and 87A logic.
- **Ledger Theatre** — Journal a transaction and watch debit / credit T-accounts update in real time.
- **Statforge** — Paste a series — mean, median, σ , CV, quartiles, and a live chart.
- **Insight Board** — Power BI-style cockpit of the B.Com run — SGPA, grades, credits, honors.
- **Ratio Radar** — Liquidity, solvency, and profitability ratios from a mini balance sheet / P&L.
- **Margin Map** — Contribution, break-even units, and margin of safety for a product line.
- **Cashflow Compass** — Monthly inflow / outflow model with runway and surplus / deficit flags.
- **EMI Lab** — EMI, total interest, and a year-one principal / interest split for any loan.
- **Premium Pulse** — Educational life / general premium sketch from cover, age, and term inputs.
- **Query Forge** — Sample commerce schema + ready queries for sales, debtors, and stock.
